

## **Contractors for Building Efficiency and Electrification**

### **Weatherization**

**Project Go Weatherization Assistance Program (WAP) Phone:** [916-782-3443](tel:916-782-3443)

Email: [info@projectgoinc.org](mailto:info@projectgoinc.org)

**The Weatherization Assistance Program (WAP) provides free weatherization services and products to improve a home's energy efficiency and reduce overall utility costs. The weatherization services consist of a full assessment of all weatherization measures that are available. Products and services provided are based upon the evaluation of cost effectiveness and essential needs.**

### **Energy audits**

Level one is a walk-through energy-efficiency inspection. A professional auditor will inspect your home for everyday energy-loss situations and provide suggestions for their repair. Level one energy audits cost around \$100 to \$150, Level two audits include level one testing and incorporate air-leak testing, HVAC systems overview, insulation review and other tests depending on the climate in your area.
